SUMMARY

Motivated and technically skilled software developer with a vocational degree in software development. Eager to apply my knowledge and enthusiasm to contribute effectively to a dynamic software development team.

EXPERIENCE

Warehouse Worker

Frode Laursen AB

May 2018 – March 2023, SE, Åstorp

- I have had many different areas of responsibility and have also trained new staff.
- Operated efficiently in a fast-paced warehouse environment at Frode Laursen AB.
- Collaborated with team members to prioritize and fulfill orders according to schedule, contributing to the smooth and efficient flow of operations within the warehouse.

Software Developer

Appsson

August 2022 – December 2022, SE, Malmö

- Spearheaded the development of a cutting-edge Progressive Web App (PWA) leveraging Angular, Ionic, and Firebase technologies.
- Seamlessly integrated and deployed a live iteration of the Stripe payment system, ensuring smooth and secure transactions.
- Assumed responsibility for code integration, serving as the key figure responsible for merging branches and conducting code reviews at the culmination of each sprint, ensuring seamless integration and maintaining code quality standards..
- Championed the website launch efforts, orchestrating the entire process from inception to deployment, while also engineering specialized components to enrich and elevate the user journey.

Warehouse Worker

ICA Lagret

January 2017 – December 2018, SE, Helsingborg

- At Ica, I worked in logistics and ensured that the right products were delivered to the right customers.
- Operated efficiently in a fast-paced warehouse environment at ICA Lagret.
- Collaborated with team members to prioritize and fulfill orders according to schedule, contributing to the smooth and efficient flow of operations within the warehouse.

EDUCATION

Diploma in Software Development

Newton Kompetensutveckling · Malmö · 2023

- The System Developer Java program spans 4 terms, providing me with comprehensive knowledge and practical skills in software development. Throughout the course, I gained expertise in Object-Oriented Programming Techniques, Database Technology, Testing methodologies, and Proficient Programming with Java & JavaScript. These foundational pillars have equipped me with a solid understanding of software engineering principles and prepared me for real-world challenges in the field of software development.

SKILLS

Java

JavaScript

TypeScript

Angular

React

Next.JS

Node.js

MySQL, PostgreSQL

MongoDB, Firebase

Git

Jira
